

Choosing a campsite

An ideal campsite:

The tent is sheltered by trees from prevailing winds, yet is not so close as to be endangered by falling branches.

It should be close to a water supply but not on low ground close to a river or stream as it may be vulnerable to flooding

CHOOSING YOUR CAMPSITE AND POSITIONING YOUR EQUIPMENT SAFELY

PLAN AN IDEAL LAYOUT OF A CAMPSITE WITH THE CARDS PROVIDED

Card 2

CHECKLIST CAMPSITE LAYOUT

- *Is the tent well sheltered?*
- *Is the camp fire in a safe location?*
- *Do you see any dangerous situation at the campsite?*
